EDUCATION

West Forsyth High School

Expected Graduation: May 2027

Cumming, GA

GPA: 4.51/5.0 | Rank 1/647

- **Relevant Coursework:** Georgia Tech CS 1301 (Intro to Computing), AP Computer Science A, AP Calculus BC, AP Physics 1, AP Statistics, AP Biology

TECHNICAL SKILLS

- **Languages:** Python, Java, Javascript, TypeScript, SQL
- **Data Science & ML:** PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebooks
- **Frameworks & Tools:** React, React Native, Node.js, Express, Firebase, Git, Arduino, Tailwind CSS

EXPERIENCE & LEADERSHIP

Georgia Institute of Technology (STEP Program)

Atlanta, GA

Summer Intern, Guggenheim School of Aerospace Engineering

Jun. 2025 – Jul. 2025

- Collaborated with a faculty-led mentor team to prototype an autonomous rover system for a simulated mission to Enceladus.
- Engineered the electrical subsystem and wiring harness for an Arduino-based control architecture.
- Integrated sensors and motor controllers to execute navigation; refined hardware–software integration via testing.

Hack Forsyth

Cumming, GA

Organizer & Operations Lead

Aug. 2025 - Sep. 2025

- Spearheaded operations for the first and largest high-school hackathon in Forsyth (115+ students, 10+ schools).
- Managed technical operations and logistics for a 10-hour programming sprint, coordinating mentors and judging flow.

Future Business Leaders of America (FBLA)

Atlanta, GA

Vice President of Competition

Feb. 2025 - Present

- Oversee competitive prep for 200+ members; led chapter to its best-ever performance at Nationals (5x increase in placements).
- Doubled participation (~100 to 200+) via structured training and strategic outreach.

West Forsyth Computer Science Club

Atlanta, GA

Executive Vice President

Feb 2025 - Present

- Lead weekly coding workshops and technical mentorship sessions for 50+ members.
- Coordinate project teams for regional hackathons and programming competitions.

PROJECTS

SpeechScore

Full-Stack Web Application

Lead Developer

Nov. 2025

- Developed a scalable communication training platform using **FastAPI** (backend) and **React** (frontend) to democratize professional speech coaching.
- Orchestrated a multi-model pipeline using **AssemblyAI** and **Gemini API** to power a virtual coach, providing rubric-based evaluations and feedback on pacing, filler words, and delivery.
- Deployed the application via **Railway** with **Firebase** authentication to ensure secure data persistence for users.

Clarity

Cross-Platform Mobile Application

Lead Developer

Oct. 2025

- Developed a cross-platform mobile ecosystem using **React Native** and **Expo** to bridge the accessibility gap in student mental health resources.
- Implemented a **multimodal AI** pipeline combining facial analysis and NLP to interpret user emotions from “Echo” check-ins.
- Shipped a high-performance “TikTok-style” vertical feed interface, ensuring seamless interactivity and accessibility across iOS and Android platforms.

AWARDS & HONORS

- **Global Finalist (Top 10 of 5000+ teams):** Wharton Global Investment Challenge
- **National 6th Place:** FBLA National Leadership Conference – Management Information Systems (2nd at State)
- **National 6th Place:** FBLA National Leadership Conference – Digital Citizenship (1st at State)
- **Digital Technology CTAE Student of the Year:** West Forsyth High School
- **State 1st Place:** FBLA State Leadership Conference – Data Analysis
- **State 1st Place:** TSA State Leadership Conference – Cybersecurity
